Welcome to my.delaware.gov!

Delaware is improving security, transitioning from each system requiring its own username and password to having a new single authentication method. Your single ID validates who you are to the different state systems and applications. When you login, you will see a single view with your applications access. The new intelligent solution leverages modern technologies like artificial intelligence (AI) to secure citizen accounts and state resources, requiring additional validations that only you will have.

For best experience, please use a recent version of Apple **Safari**, Mozilla **Firefox**, Google **Chrome** or Microsoft **Edge** browser.

- Secure access to all state resources
- Single account to access applications
